The Department is requesting market-based salary adjustments in order to remain competitive with other departments. The majority of the Department's positions were not included in the compensation study that the FY 2020 Market Adjustment Pay Plan was based on. The Department conducted a review of the adjusted positions to determine which DESE positions are similar to positions at other state agencies that were included in the FY 2020 market adjustment pay plan. This requests is for a salary increase for these positions.

PG. 78

SECTION 2.015

The state’s education funding formula was changed in SB 287 (2005) with the changes becoming effective in FY 2007. The previous formula was a tax rate driven formula which provided a certain amount of money per student for each penny of property tax rate of the school district. The current formula follows a student needs philosophy. The new formula is weighted average daily attendance x state adequacy target x dollar value modifier – local effort = state funding. The new formula combines funding from FY 2006 for Equity, Line-14, Exceptional Pupil Aid, Remedial Reading, Gifted, Fair Share, and County Foreign Insurance.

Legal Basis: Section 163.031 RSMo.

DESE is receiving an increase in federal funding to be made available starting January 1, 2022 through September 30, 2023 to address the unprecedented challenges in purchasing and receiving food for school meals. As a results of supply chain disruptions, school meal program operators have had to significantly revise planned menus. Shortages and price fluctuations have made it difficult to provide appealing meals to students that meet the National School Lunch Program (NSLP) and School Breakfast Program (SBP) nutrition and meal pattern requirements.

FEDERAL REFUGEE PROGRAM**

PG. 607

SECTION 2.190

The U.S. Department of Health and Human Services provides funding to the International Institute of St. Louis. The International Institute partners with the department to administer grant programs with school districts with the largest number of refugee students. These school districts apply for the funding and the grants support programs designed to ensure refugee children achieve academic performance at a rate commensurate with that of the average of all children in a district. Training opportunities to refugee families and the school personnel are also provided. The funding provides culturally and linguistically appropriate materials, such as special curricula or activities, translation services, and interpreter services for identified families with school-age children. Currently, two traditional school districts (St. Louis and Kansas City) and one charter school (Kansas City International Institute) have been awarded grants.

Continuous Improvement funding will provide resources to school districts and charter schools to engage in systematic improvement. The resources are research-based and available to all public schools. The Missouri School Improvement Program 6 will incentivize continuous improvement of school systems to ensure Missouri students graduate prepared for success. This program will accomplish this goal by continuing to emphasize standards for student performance but will also emphasize leading indicators - inputs in economic terms - that will ensure healthy school systems and the continuous improvement process. Systems reviews will provide public schools with accurate information regarding curriculum alignment to Missouri Learning Standards and the degree to which instruction is aligned to effective practice. The Department will provide resources and technical assistance to support school improvement, based on the systems reviews.

An increase in state funding is necessary to maximize all available federal funds to provide vocational rehabilitation services for Missouri’s citizens with disabilities. The VR federal grant is a formula based grant, adjusted annually based on the Consumer Price Index. This request for \$1,225,201 in state funds is needed to secure an additional \$4,606,856 in federal funds. Sufficient federal appropriation capacity exists to meet this need.

The Missouri Charter Public School Commission portfolio is made up of fourteen schools in three districts serving 8,844 students. Since FY 2016, the Commission has approved five new schools, accepted the transfer of eleven, and closed two. When anticipated transfers occur in FY 2022, the Commission will realize an 80% increase of its portfolio in Kansas City and needs to add staff to support this growth. Positions requested are Deputy Director for Community Engagement and two Charter School Specialists. This will be paid from the Commission's revolving fund.

The majority of the Department's positions were not included in the compensation study that the FY 2020 Market Adjustment Pay Plan was based on. The Department conducted a review of the adjusted positions to determine which DESE positions are similar to positions at other state agencies that were included in the FY 2020 market adjustment pay plan. This requests is for a salary increase for these positions.

The Missouri Commission for the Deaf and Hard of Hearing is mandated to "develop a system of state certification for those individuals serving as interpreters of the deaf" per 161.405, RSMo. MCDHH coordinates a certification system for sign language interpreters to ensure Deaf and Hard of Hearing Missourians have access to quality interpreting services. For the last several years, MCDHH has used Texas' Board for Evaluation of Interpreters (BEI) exam and has sent the exams to Texas to be rated. Texas will no longer provide rating services to Missouri, so Missouri must set up and pay for its own rating system, which will increase costs to administer the BEI program. If the State cannot provide funding for this, the costs will be passed on to interpreter candidates, which may drive people away from the already scarce profession that is needed to serve our Deaf and Hard of Hearing community.
